& 11TH EBPF ANNUAL CONGRESS

WELCOME MESSAGES

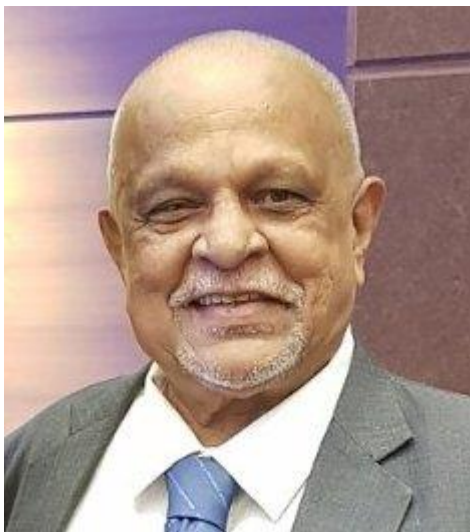

DEAR DELEGATES, COMPETITORS AND FANS

It is with utmost pleasure that I send you this Message from the World Bodybuilding and Physique Sports Federation (WBPF).

I am pleased to learn that Axel Bauer, President of ABPF and EBPf and his team are organizing the 11th WBPF European Bodybuilding and Physique Sports Championships in the city of Telfs, Austria from 10th to 12th June 2022.

Some of the best athletes from all over Europe will be participating as this is a very important event. In 2010 I attended the 1st WBPF European Bodybuilding and Physique Sports Championships in the capital of Austria, Vienna, and had a great time enjoying the hospitality of the Austrian Federation and its officials. It is great to hear that the Austrian Federation is again taking over the responsibility to organize the European Championships and I am sure that the Organizing Committee will do its best to make this event become a great success.

I wish to congratulate Axel Bauer, Markus Antretter, Horst Leser and all the members of the organizing committee in making this event a great success. I wish to congratulate President Axel Bauer, Vice-President Valeriy Lutsak, Secretary Horst Leser and all the other members of the Executive Council of EBPf for their hard work and dedication.

Datuk Paul Chua

President World Bodybuilding and Physique Sports Federation (WBPF)

DEAR DELEGATES AND ATHLETES,

It is both a great honor and pleasure to announce that the 11th WBPf European Bodybuilding and Physique Sports Championships will be organized and conducted this year by the Austrian Bodybuilding and Physique Sports Federation (ABPF). As everyone knows the COVID 19 – Crisis has strangled Europe severely so that it was not possible to organize European Championships in 2020 and 2021. After the Austrian Bodybuilding and Physique Sports Federation (ABPF) has successfully organized the 1st WBPf European Championships in 2010 in Vienna, it is now the 2nd time that Austria is taking the task to host this competition.

This year this important event will be celebrated in the beautiful town of Telfs, located near Innsbruck, the capital of the sub-country Tyrol in the west of Austria, which was two times host of the 1964 and 1976 Winter Olympics. ABPF is organizing the European Championships 2022 in collaboration with the Tyrolean Bodybuilding and Physique Sports Federation and the Telfs Bodybuilding and Physique Sports Federation under the capable leadership of ABPF Vice-President Dr. Markus Antretter. Dr. Antretter is a well-known Bodybuilder himself, he became WBPf Master Men's Bodybuilding World champion in 2018 in Chiang Mai/Thailand and he and his local organizing team of officials from Tyrol will ensure that this competition will become a great success.

The team of ABPF is an important member in Physique Sports in Europe and the World and is doing a great job year after year since the formation of EBPF and I am convinced that all participating federations with all their teams will have a great time in the beautiful sub-country of Tyrol, Austria.

It is definitely worth to stay a couple of more days after the European Championships to enjoy the beautiful sub-country of Austria, Tyrol, with its magnificent Alps.

The organizing committee of ABPF will do its utmost best to make your stay comfortable, memorable and unforgettable and I am sure that everybody will bring back great memories from these historic 11th WBPf European Bodybuilding and Physique Sports Championships.

Yours in Sport,

Mag. Axel Bauer

ABPF President
EBPF President
WBPf Vice-President for Europe

Mag. Dr. Markus Antretter, BEd MSc (PhD)

HOST CITY

Telfs is a small town with about 16.000 inhabitants and is located 27 km west of Innsbruck, the capital of Tyrol in Austria that is an alpine country in Central Europe with about 8.8 million inhabitants. The majority of the population speaks the official language German but many Austrians can also speak English. The official currency is the Euro (100 Eurocent is 1 Euro). The time zone is Central European Time (Coordinated Universal Time + 1 hour). Concerning any electronic device the plug type is C and F, the residential voltage is 230 V and the frequency is 50 Hz.

Next to a highly developed industry, international tourism is the most important part of the national economy. Austria has a high degree of prerequisites for tourism. These include, on the one hand, the many natural areas and mountain landscapes (e.g. the Alps and the granite and gneiss highlands), lake landscapes, numerous cultural monuments, attractive cities and the well-developed infrastructure, and, on the other hand, in particular the rich history and the Habsburg brand, which, for example, generates tourism revenues of 60 million euros per year for the city of Vienna alone. In addition, there is the central location in Europe and the good accessibility.

In Tyrol, tourism is even the central economic factor. Tyrol accounts for one third of all overnight stays in Austria. Winter is the strongest season, which is caused by the many ski resorts. Probably the best known is Kitzbühel, where the legendary Hahnenkamm race with its notorious Streif downhill run is held every January and is broadcast on television worldwide, ensuring high viewing figures. In summer, on the other hand, the mountains are ideal for hiking and cycling tours.

Telfs is located in a basin-like extension of the Inn Valley at the foot of the 2,662-meter-high mountain called Hohe Munde.

In the 19th century and well into the 20th century, Telfs was a center of the textile industry, former factory buildings still characterize the townscape. Today, the economy is dominated by

manufacturing companies, energy production (E-Werk - Gemeindewerke Telfs) and services.

The community has experienced strong growth in recent years. New settlements were built mainly in former forest areas at the foot of the Hohe Munde. There are some religious buildings, namely 4 churches, a monastery and, since 2007, the Eyüp-Sultan-mosque with a minaret, the first one in Tyrol. But sports are not neglected either: a public swimming pool, the sports center, a sports field, a tennis court, a golf course, a climbing hall, a fitness center as well as cycling and hiking trails prove that.

Telfs is located at a crossroads of important traffic routes and is connected to the Inntal freeway via the Telfs Ost and Telfs West junctions. The station Telfs-Pfaffenhofen is located at the Arlbergbahn and is served by the lines S1 and S2 of the S-Bahn Tirol and by REX trains. In addition, an Intercity train of the Innsbruck-Bregenz connection stops daily. But also public buses operated by

Postbus connect Telfs with all surrounding towns. Last but not least, cabs will take you wherever you want to go.

The weather in Telfs is wet in June with some rainy days. The average daytime temperature is 19 degrees Celsius, at night it drops to 12 degrees. However, they can exceptionally rise to 30 degrees or drop to 3 degrees.

AIRPORT

The Airport Innsbruck (IATA: INN, ICAO: LOWI) is an airport located 3.5 km (2.2 mi) west of the city of Innsbruck, Old Town and 25 km (15.6 mi) east of Telfs. It is connected by bus to the city of Innsbruck operated by IVB as line F.

AIRPORT SHUTTLE SERVICE:

The organizing committee will not provide an airport shuttle service and therefore recommends to choose a hotel that offers such a service!
